Education

PhD	Brock University , Computer Science	St. Catharines, ONCanada Jan 2024 – present
MSc	Ontario Tech University , Computer Engineering	Oshawa, ONCanada Sept 2022 – Oct 2023
BSc	University of Tabriz , Computer Engineering	Sept 2017 – Sept 2021

Experience

NICI Lab, Brock University , AI/ML Research Assistant	St. Catharines, ONCanada Jan 2024 – present 2 years 6 months
- Researching neural network dimension reduction with models up to 1000x smaller and memory cost reductions up to 5x. - Researching gradient-free neural network training and fine-tuning. - Researching multi-objective encoder/decoder models.	
Brock University , Teaching Assistant	St. Catharines, ONCanada Jan 2024 – present 2 years 6 months
COSC 1P03, Data Structures (Winter 2024).	
NICI Lab, Ontario Tech University , AI/ML Research Assistant	Oshawa, ONCanada Oct 2021 – Oct 2023 2 years 1 month
Researched large-scale global optimization problems and center-based sampling with meta-heuristic algorithms.	
Ontario Tech University , Teaching Assistant	Oshawa, ONCanada Sept 2022 – Dec 2023 1 year 4 months
- Machine Learning and Data Mining (Winter 2023). - Designing Algorithms (Fall 2022). - Object-Oriented Programming (Fall 2022, Fall 2023). - Principles of Software and Requirements Engineering (Winter 2023).	
FaraDars , Machine Learning Intern	June 2020 – Sept 2020 4 months
Implemented machine learning engineering simulation tools deployed on the web.	

Publications

Block Differential Evolution	Jan 2023
Research on differential evolution for large-scale global optimization. Rasa Khosrowshahi, Shahryar Rahnamayan scholar.google.com/citations?view_op=view_citation&hl=en&user=yvSevxQAAAAJ&citation_for_view=yvSevxQAAAAJ:2osOgNQ5qMEC	
Clustering Center-based Differential Evolution	Jan 2022
Center-based sampling approach for differential evolution. R. Khosrowshahi, S. Rahnamayan, A. A. Bidgoli github.com/rkhosrowshahi/CCDE-WCCI2022	
Ranking Center-based NSGA-II	Jan 2023
Center-based sampling approach for multi-objective optimization with NSGA-II. R. Khosrowshahi, S. Rahnamayan, A. Ibrahim, M. Makrehchi	

Skills

Languages and Databases: Java, PHP, JavaScript, Python, MySQL

Frameworks and Technologies: Android, React, Node.js

Tools and Platforms: Android Studio, Git, Docker
